

WA IN-HOUSE PROCESSING CAPABILITIES

OXY PROFILER / HD PLASMA / BEAMLINER / BANDSAW

PROARC OXY PROFILER

Ideal for large thick plates. Suitable for bridge building applications, large gear infills, grizzly bars, heavy earthmoving parts etc. The 5 head capability allows for strip cutting of whole plates thus reducing cost.

HIGH DEFINITION PLASMAS X 2

Ensures high quality precise parts, improves productivity and flexibility. Guaranteed accuracy on large and small parts. Generates part identification marks/heat numbers or cleat locations on plates via etching.

HIGH DEFINITION DRILL & BEVEL PLASMA/OXY

Ensures high quality precise parts, improves productivity and flexibility. Guaranteed accuracy on large and small parts. Generates part identification marks/heat numbers or cleat locations on plates via etching. Drilled holes in cleats and base plates, countersunk holes possible for shute liners and can provide weld preps for bucket and dump tray liner kits.

BEAMLINER

Allows delivery to site. Minimises workshop preparation of cutting and drilling.

- Cut lengths up to 20m long
- Holes drilled 12mm to 40mm diameter
- Mitre Cutting

BANDSAWS

Pack cutting capability for uniformity of lengths. Ability to cut rail.
