

HAND TOOLS

PRODUCT INFORMATION

We are now stocking a small range of hand tools directly related to working with steel. Need a hacksaw to cut that tube? We have it mmMate. Need a tape measure to measure up that patio? We have it mmMate. We want to make it more convenient for you when you come in, to get a reasonably priced hand tool which you need to complete your project, or replace that worn tool you have been using for the last 10 years.
